**Map products**

basemap.at is available in the versions Standard, Gray, Overlay and High-DPI.

**About basemap.at**

basemap.at is the result of a cooperation of the nine Austrian provinces (geoland.at), ITS Vienna Region (GIP.at operator), the Vienna University of Technology and Synergis. The project was co-funded by the Climate and Energy Fund.

From 2012 to 2013, the project team created the foundations for an open web basemap, which was published in 2014. It is used for numerous administrative procedures. In addition, it is also available for private and commercial purposes according to the Austrian Open Government Data conditions.

- implemented as WMTS, thus easy to combine with OpenStreetMap, Google Maps, etc.
- based on the latest data by the administrations, updated bimonthly
- free and easy usage, also for commercial purposes, OGD license CC-BY 3.0 AT
- robust and highly performant

The project was co-funded by the Climate and Energy Fund, within a program for innovation in green and efficient mobility.
**Terms of use**

`basemap.at` can be used for any purpose, even commercially, according to the Open Government Data License Austria, **CC-BY 3.0 AT**.

Please provide attribution as follows:

**Data source:** `basemap.at`

- including a hyperlink to `http://www.basemap.at`

**Underlying data**

`basemap.at` is a cartographic product based on the administrative data of the nine Austrian provinces and their partners, especially the Austrian Association of Cities and Towns as well as GIP.at – a nationwide transport graph.

The map covers the entire Austrian territory. It is updated bimonthly according to the data updates from the partners. The cartography as well as the underlying data are constantly updated and improved. Therefore, not only the map content, but also the cartographic presentation might change in the future.

**Are you using `basemap.at` already?**

If you have included `basemap.at` within a publicly available web application, we are looking forward to hear from you. Please inform us (viennagis@ma14.gv.at) and we will add your application to our „Gallery“ on `www.basemap.at`.

**Web Map Tile Service (WMTS)**

The service is available as OpenGIS Web Map Tile Service 1.0.0 (WMTS) according to the OGC standard.

WMTS GetCapabilities:

`http://www.basemap.at/wmts/1.0.0/WMTSCapabilities.xml`

**Service access**

`basemap.at` offers pre-rendered, cached raster tiles in `Web Mercator Auxiliary Sphere`. They are compatible with well-established web basemaps, such as OpenStreetMap, Google Maps and Bing Maps.

**Map Viewer**

A simple map viewer can be accessed with this QR code or from the `basemap.at` website.

**Contact us**

- **for general remarks:** City of Vienna (project management), viennagis@ma14.wien.gv.at
- **for questions regarding a specific province:** GIS representatives
- **for reporting errors:**
  
  Use our online tool and add annotations directly to the map. Please find the link on our website. Your notifications are highly appreciated.

**Legal info**

**Publisher:** Vienna City Administration and the Provinces of Austria (Stadt Wien und Österreichische Länder bzw. Ämter der Landesregierung)

**Disclaimer:** Although the contents of `basemap.at` are compiled very thoroughly and the technical services are programmed to meet the highest standards, the publishers can take no responsibility for the complete correctness and suitability of the information and services offered. All information and data are provided without warranty of any kind, and neither of the above entities will be liable for any special or consequential damages resulting from the use of the contents and services provided.

`basemap.at` is offered with a service availability of 99.985%. All users share the same infrastructure. Exclusive contracts for higher service availability cannot be offered.
